FAÇADES

- Safeguarding and emergency measures to ensure the safety of the occupants
 - 100°C high-pressure washing, low-pressure hydrogumming stripping and decontamination (asbestos, lead, PCB HBCD)
 - Intensive curative carbonation treatment, long-term preventive treatment for concrete using MFP (highly persistent corrosion inhibitor)
- Balcony bracing and regulatory standards compliance work, application of protective resins and supporting special work
 - Breathable and environmentally friendly mineral anti-carbonation protective layers with transparent or covering colours

ENERGY COMPLIANCE

To achieve the IDC 450 MJ/m2year (125 kWh/m2year) objective for your buildings:

- CECB+
- Traditional, high-quality perimeter insulation
- Aerogel external wall insulation (0.015 W/mK)
- Flat roof insulation
- Extremely thin interior insulation
- Cellar and basement ceiling insulation

SPECIAL WORK

- Sealant and floor resin
 - Basement and parking space cleaning
 - Infiltrations, injections, casings
 - Coring, masonry
- Building protection with aerial lifts and work at heights
 - Expansion joints
 - Anti-graffiti protection

EMERGENCIES

- Safeguarding
 - Masonry
 - Infiltration studies
- Building protection with aerial lifts and work at heights
 - Expansion joints
 - Anti-graffiti protection

SURFACE TREATMENTS

- Sandblasting
 - Hydrogumming stripping
 - High-pressure washing
 - Acid stripping/Sanding
- Polishing and cleaning
 - Bush hammering
 - Water/oil repellent
 - Surface protection

INTERIOR TRANSFORMATIONS

- Demolition
 - Soil pipe replacement
 - Plastering/Painting
 - Drywall
- Suspended ceiling
 - Floor coverings (parquet and tiling)
 - Attic insulation
 - Paving stone thermal insulation

DECONTAMINATION

- Hazardous surface diagnostics (asbestos, lead, PCBs, PAHs and VDI 3492 release-from-liability measures)*
 - COVID 19 decontamination
 - Pollutant emergency response
 - Lead-containing paint work
- Asbestos removal*
 - Removal of PCB-containing paint and seals
 - Post-fire decontamination
 - Mercury decontamination of soil

*Not performed simultaneously on the same work site

SEALANTS

- Emergency response
 - Infiltration treatment
 - Periodic servicing
 - Leak assessments
- Technical studies of renovation procedures
 - Complete sealant application
 - Safety lifelines
